NUMBER 6

THINKS CITIZENS DO NOT DISPLAY ENOUGH SPIRIT

It is a recognized fact that any individual or body of men is open at all times to public criticism through the privilege is often taken advantage of to cause by certain pessimists who believe in voting against the "powers that be" or by those who will find fault with the sun for shining. In other cases, criticism comes from a good source and should be acted upon, no matter how well matters are being done or engineered.

Wainwright was visited on Monday by Mr. R. H. Bartholomew, a prominent real estate broker of Montreal. For the past year, he has manifested a great interest in the town, due to the fact that he owns considerable real estate here. Mr. Bartholomew was somewhat disappointed to find upon his arrival here that the town presented the same aspect as the ordinary western village, whereas he had expected to find it, shaping towards a city. He was likewise astounded to find that so few improvements had been made by the civic administrators and offered in a respectful manner many suggestions, which, if acted upon, would assuredly redound to a broader and more progressive Wainwright.

He was convinced that the town was admirably situated, its geographical location being ideal. Few cities had such a splendid location but improvements were needed. Mr. Bartholomew stated that the citizens and officials should be more optimistic and strive in the beginning to build up a beautiful city. "Where are your graded streets?" asked he. "The town is large enough and should have electric lights. Your sidewalks are a disgrace. The civic administrators should wake up to the fact that they have work to perform. If they are not doing good work put them out and elect a new board to administer the affairs of the town."

He was also disappointed to see that the G. T. P. had done so little for one of its chief towns. It had been named after one of the officials of the system and he was informed that Mr. Wainwright had visited here but twice. He was surprised and disappointed to hear this as he knew Mr. Wainwright personally. "If the G. T. P." said he, "would display such interest in Wainwright as the C. P. R. does in its towns, there would be no doubt but that this town, too would soon be a city."

TO CELEBRATE ANNIVERSARY

Do not overlook the fact that the Methodist Church is celebrating its anniversary next Sunday and Monday. At both Sunday services, Rev. Thomas Powell of Edmonton will preach. On Monday, the following evening, a grand fowl supper will be given after which a popular musical program will be rendered. Rev. Theo. Powell will deliver a very amusing lecture, "The Other People we meet." The admission price as advertised is adults, 50 cents; children 25 cents.

Practically have already started for the presentation of "The Barrier." A strong cast of local characters has been chosen to take part in the play. It is thought that the play will be presented on New Year's Day.

THESE RULES GOVERN HEALTH - READ THEM

Typhoid fever is caused by the water or milk you drink or the food you eat being poisoned by the discharges from the person of a previous case of typhoid and in no other way.

Water and milk are the two articles most frequently poisoned by typhoid. Heat kills the typhoid poison. Therefore: Boil all drinking water for twenty-five or thirty minutes. Pasteurize all milk and cream, especially for the young. A good way is to set a pan of cold water on the stove and put the vessel containing the milk into this pan; just as soon as the water comes to a boil take it off, add a pinch of baking soda to the hot milk, a little less than half a teaspoonful to a quart. Dirty hands may also carry typhoid poison. Therefore: Wash your hands carefully before handling any food or drink.

Food gets poisoned, especially green stuff by being manured by night soil; by flies crawling over it after feasting on typhoid discharges, of which they are particularly fond; and by the filthy dust of the street. Therefore: Wash thoroughly all vegetables and fruit intended to be eaten raw. Wash in water that has been boiled and cooled. Keep flies out of the house as much as possible by screens and fly paper. Cover all food supplies so that flies may not have access to them. If all the discharges of every existing case of typhoid fever were instantly disinfected, there would be no more typhoid fever in the world. Therefore: If you are so unfortunate as to have a case of typhoid in the family, disinfect every discharge as a duty to your neighbour as well as to prevent others of the family from contracting the disease.

Sulphate of Copper (Blue Stone) is the best typhoid disinfectant, is cheap, and can be procured everywhere. Dissolve one pound in two and a half gallons (one pail) of water. Keep a pint of this in a vessel for discharges from bowels and bladder. Stir thoroughly for a few minutes; let stand for fifteen minutes and the germs will be destroyed. Stools and urine should never be thrown out on the ground. If no system of drainage is at hand, they should, after being thoroughly disinfected, be thrown into a hole in the ground and covered with earth. Germs if not killed by disinfection will live a long time in the soil. This method of disinfection should be continued for a month or six weeks after recovery. Germs have been found in discharges as late as two months after recovery. Do not allow any discharge from bowels or bladder to be disposed of except in this manner.

Damp and unclean basements and yards and unclean premises and surroundings weaken the health so that typhoid is more readily contracted and is more severe. Therefore: Clean up and get rid of all refuse and filth. Open up drains and make sewer connections tight. Fresh barrow time will keep damp basements and yards dry. It should be used freely in such places, especially after the sewer has "backed up" and catch basins have overflowed. Cleanliness is not only next to Godliness, but it is the only safeguard against typhoid fever, cleanliness of the person; cleanliness in every detail of housekeeping; cleanliness of everything to be eaten and drunk; cleanliness in the case of those sick of the disease; cleanliness; cleanliness; cleanliness.

Typhoid fever is the result of lack of cleanliness, not necessarily on the part of the patient, but, certainly, on the part of somebody. If, above all others, the filth disinfects, the above is a copy of a pamphlet prepared and sent out by the Saskatchewan Department of Agriculture. It is suggested that if the above is followed out in detail and care taken towards the prevention of typhoid, there need be no fear on the part of any individual of this infection.

OPERA COMPANY WILL BE HERE NOVEMBER 6

Remember the International Operatic Company is a new thing, good and within your reach. It is a musical organization of individual merit, the Company is now in the field to sustain and enhance the merit that will naturally belong to it as an aggregation of experienced artists, who are unquestionably, both individually and collectively the best exponents of Musical Art before the people of the West today. You will not miss the money, but you will miss a treat and a musical education if you miss the opportunity of hearing this splendid Company at the Auditorium on Monday Evening, Nov. 6th.

TENDERS

Sealed tenders will be received by the undersigned until 12 o'clock noon of November 9th, for the construction of a school to be completed by January 1st, 1912. Plans and specifications may be seen at the home of the secretary, on Sec. 14-40-W. 4th.

The lowest or any tender not necessarily accepted.

John Moore, Chairman
School Board,
Joseph Taylor,
Secretary,
Giles School District No. 2404.

HOLIDAY

Next Monday is Thanksgiving Day and hence a holiday. It will be taken advantage of by many local sportsmen, who have already formed parties to participate in the last day's chicken shoot.

CENSUS

Final census returns have given Alberta a population of 372,919, as compared to 73,022 in 1901. The increase has practically been 300,000 during the past decade. With the redistribution Bill coming into force, the province will be entitled to five new members in the Federal House. Until the population reaches 400,000 Alberta will not be given the increased subsidy of more than \$187,000.

ON TRIAL TODAY

For the past two months, merchandise and supplies, consigned to merchants along the line have been tampered with and certain articles taken from the vans on the local sidings, although the raids were made boldly, all efforts to detect the guilty parties proved fruitless.

On Wednesday last, the same thing occurred, and Station Agent Harper had his suspicions aroused in the direction of a certain employee of the company. The young man in question was taken into custody and lodged in the police barracks, pending trial. Bail to the extent of \$1,000 was secured, several G. T. P. Boys and L. P. Hussey going his bonds. The trial will come off tonight before Justice of the Peace Ross.

Dr. Watson, who was taken to Edmonton a week ago, suffering from typhoid and whose condition has been serious for the past few days is considerably improved today.

DECLARED OFF

Local Option Election Called off Due to Insufficient Time Being Given in which to Appoint the Polling Officers.

The local option vote in the electoral districts of Central Alberta, set down for November 30th, has been called off for the fall. The reason is that the local option act, passed by the Territorial legislature fifteen years ago, has been found to be unworkable in present conditions.

The decision in favor of the postponement was arrived at on Saturday by the Government, following a conference with representatives of the licensed victuallers and the Temperance and Moral Reform League. The work that the Temperance people have done in securing signatures, etc. will be used as a basis for a vote after the act is amended at the next session. The Edmonton Bulletin.

AT LAST! AT LAST!! AT LAST!!!

An Agricultural Society is Now Formed after Years of Inexcusable Delay.

IT'S TRUE, IT'S TRUE

Wainwright has eventually fallen in line and can now boast of an Agricultural Society. It came slowly yet it finally resulted and now both town and district are blessed. Officers and members are confident that an organization has been formed that will do credit even at this late stage. The matter has been agitated for at least two years and on every occasion by those who perceived that Wainwright was in the rear, while other towns were outstripping her in this respect.

And so on Saturday last it happened. Farmers from the district, citizens from the town and all interested in such a formation were present. The meeting was a representative one and was called and presided over by Frank Rack, Organization Agent for the Department of Agriculture. Residents from all parts of the district were present, thereby showing their strong desire for such a formation. Indirectly, the meeting was the result of strong agitation by the U. F. A. although action was also desired by the citizens as well.

The following officers were then elected:

President, M. I. Forster.
1st. Vice-Pres. Frank Rack.
2nd. Vice-Pres. A. Martin.
Secretary, P. E. Ross.
Treasurer, W. J. Musson.
Directors: Thos. Sheridan, G. L. Hudson, E. W. Stouffer, B. Zimmermann, E. A. Snyder, H. Y. Pawling, Geo. Richardson, A. Plaxton and P. E. Ross.

After the election of officers, Messrs. Rack and Ross were appointed a committee to interview the town council at their next meeting, re-organize and lease of exhibition grounds.

A NEW ONE ON THE MAJORITY OF US

A new departure will be taken by the ladies of the Catholic Church, that will doubtless go down from year to year, at any rate the first will be known as the first anniversary of the Fair. The First Annual Progressive, Enchre party is in aid of the Wainwright Catholic Church will be held in the Auditorium on November 9th, commencing at 8:30 P. M. Three parties, supper served in the hall. Admission 50 cents.

VOTE ON RINK BYLAWS ON THURSDAY NOV. 2nd.

Prospects for the ratification by the ratepayers of the two separate by-laws in connection with the construction of a rink and the purchase of lots for that purpose are growing brighter each day and now that a new phase of the situation has developed, it is thought that there is hardly any doubt but that it will meet with favorable consideration from the citizens.

For three years, the question has been advanced for the erection of a rink by the individual or by a company, as was done in Vermilion and other neighboring towns. Such a claim was considered private, in view of the fact that a certain risk was attached to the success of outcome of the venture. In another way the proposition was a big one for any private individual to handle and the grounds for suspicion were well founded.

A review of the rink question for the past three years reveals the fact that a very large number and in fact the majority of the ratepayers were highly in favor of such a venture being launched and promised their entire support should a rink be constructed. And now that the town is taking up the matter, and has passed in council a by-law providing for the immediate erection of a \$7,000 building, and offering the same to the ratepayers on a five and one-half per cent basis of interest on the debt, an opportunity is afforded of seeing the hopes of the majority realized. In this case and should the debentures be accepted pending the vote on it by the citizens, the interest on the whole annually would amount to \$388.50. From this it can readily be seen that such an amount could be doubly realized providing the rink was placed under capable management.

It is contemplated by the young men of the town to apply for quarters in the rink building, where they can meet for mutual benefit each night and where the principles of their organization can be advanced to advantage. Should the by-law pass, enough has already been intimated by the councillors to assure such a place for the young men to meet. The ratepayers will no doubt consider this probability before casting their votes on November 2nd.

Should the by-law meet with the approval of the citizens, a building will be started immediately and the proper steps taken for the assurance of such before the winter season sets in. The structure will be of large dimensions and sufficient to meet the demands of the town for many years to come. The main rink space will be of regulation size with smaller rinks on each side for carling purposes.

Aside from the fact that the pleasure resort will afford a place of enjoyment for the town, there is every indication that it will also net a tidy surplus and thus increase the revenue in the coffers of the public treasury.

Another argument is also raised and the grounds of reason are evidently founded logically. At the present time, the farmers of the community and certain people in the town have elected officers and started the wheels of progress towards an agricultural society. The main drawback for the past two years and one which has retarded such a formation until this late date has had its origin in the fact that no buildings were standing that could be used for the purpose for which they would be required by an agricultural society. Should this building be erected, an opening would be extended for an agricultural society and the holding of annual fairs, in which respect it is recognized that Wainwright is a pace behind our neighbors.

SMOKER

Determined to keep up the good work they have done during the past two months and resolute in their desire to further the interests of the party they represent, the Conservatives will give a smoker on Friday evening next in Washburn & Mills' Hall, Second Avenue. A social and pleasant evening is planned and all conservatives are urged to be requested to attend.

NEW FIRE BELL HERE

The new fire bell and gasoline engine, ordered a short time ago by the town, have arrived and was unloaded from the cars. It will take the place of that which has been used for the past two years and which was originally the gift of Mr. William Wainwright. The new bell is three feet in diameter at the base and weighs in the vicinity of 1000 pounds.

As for the engine, it is mounted on four wheels and has four cylinders. It has been equipt here, as the result of the satisfactory inspection made of it last summer by the delegation from the town to the Watrous Engine Co. is expected here this week to make all the tests.

Damon and Pythias

Preparations have already been started by the members of the local Lodge, Knights of Pythias for the production of that famous play, "Damon and Pythias." The play, which is a strong one for the foundation of the order and will be well presented.

STRIKE SITUATION REMAINS UNCHANGED

The strike situation among the mechanists and boiler-makers of the G. T. P. remains unchanged, neither side having gained a point of which they can boast. All the strikers have been paid off and are now without positions with strike breakers taking their places. The greater portion of these men are inexperienced and unskilled and are causing delays in certain towns, where the strike has had its effects. No difficulties have been reported here, although the strikers claim that the work is not being well done.

Indications point to the fact that the strike will be a prolonged one as neither party of the disagreement will give in.

Can Expect Something

Mr. J. E. McCormack, Winnipeg Manager of the National Townsite and Colonization Co. is in town today, looking over his interests in the subdivision now on the market and known as "South Wainwright". Mr. McCormack states that the lots are now available and are being remarkably fast and that in a few weeks he will have announcements to make that will greatly interest both the town and farmers of the district.

After an extended honeymoon in Ontario and Eastern cities, Mr. and Mrs. W. S. Clark have returned here and are now occupying the apartments over Mr. Clark's store. Needless to say, upon their arrival here, Mr. Clark was the recipient of many hearty congratulations.

WILL SEED 1000 ACRES IN GRAIN BUT LITTLE FLAX

Although characterized by its brevity, the visit of Mr. A. Mondou to Wainwright last week was nevertheless typical of the remarkable sentiment of optimism that is displayed by one and all who visit the district. Arriving Thursday and departing Sunday, his time was devoted to many matters and in many ways. First, it was politics, these being the voters' crops in general and the Wainwright crop in particular, and finally, a thorough inspection of the flax crop produced on his hundred acres of land, lying north of town.

From the start, he realized that his crop had been a failure but he recognized the fact that the same conditions prevailed in every part of the West. He came from Quebec with the impression that it had been a total failure, he left with the realization that it had turned out a great deal better than he had expected. Firm in his belief that the district is admirably adapted to grain growing, he will seed the entire acreage next year, half of which will be planted in wheat, three hundred acres in oats and the remainder in flax.

Since his last visit here, Mr. Mondou has been elected to the Federal House and now sits as the member for Yamaska, P. Q. For the past thirty-two years, the seat has been held by Liberals, yet on September 21st, he secured a majority of fifty-five and won back the seat for the Conservatives. It was then natural that politics should form a topic for discussion. Reciprocity was discussed by Mr. Mondou from the podium to the revelation. Many frequent were his references to Bourassa as a man among men and just so many were his words of praise for the man.

Before leaving, Mr. Mondou stated emphatically that he would have his entire tract of land under crop again next year and that, although many of his bright hopes had been dashed, he was nevertheless optimistic still concerning the remarkable possibilities and resources of the Wainwright District.

Anniversary of Church Was Successful

The 2nd. Anniversary of the St. Andrews Presbyterian Church was most suitably celebrated on Sunday and Monday, both in worship, music and song.

At both Sunday services, Rev. N. D. Kitch, President of the Ladies College at Red Deer, officiated and delivered able sermons to large congregations. In the afternoon, the service was devoted to the children and was largely attended also.

On the following evening, commencing at 8:30, the ladies of the church served an elaborate game supper, which was attended by a number, sufficient to make the gross receipts \$140. About 8 o'clock a grand concert was started, consisting of solo recitations and piano duets, after which a very amusing and instructive lecture was delivered by Rev. N. D. Kitch, his subject being "Sins and Gambles in Britain."

Both affairs added much credit upon not only the board of management of the church but on the ladies, who extended untiring effort towards the success of both the supper and concert.

DOROTHY BODD SHOES

WESTERN KING OVERALLS

...Fall Top Coats to Measure...

You'll find all the popular fall coats here. Beavers, Miltons, Irish Fries, Scotch and Irish Tweeds. Wide and narrow stripe effects, herring bones, wales, diagonals, etc. Made to measure in the loose box, Chesterfield, fly front or the button through effects. Let us make your fall top Coat.

WAINWRIGHT, ALTA., WEDNESDAY, OCTOBER 23, 1911

An Ounce of Prevention.

Doubtless the public have observed with no slight degree of alarm the numerous cases of typhoid fever in the town, and have seen to the same degree the disastrous effects of the infection. In all, perhaps there are two dozen inflicted victims and new cases are developing daily. The cause for it is obvious to one, who has observed the prevailing unsanitary conditions in the community and the seeming carelessness that householders are practicing.

Within the town limits there are many, who, from all appearances, exercise no discretion in the prevention of either contagion, infection or disease. Fish and refuse are allowed to collect under the very noses of themselves and their neighbors. Privies are in many cases unsanitary, outhouse closets are cleaned when occasion demands it, while the ordinary refuse from the kitchen is dumped in any convenient place.

It is evident and it cannot be disputed that the officials in whose care the healthy condition of the town is entrusted have been extremely lax in their duties. Householders and tenants have been allowed to exercise their own discretion in all matters pertaining to public sanitary conditions and in many cases, no attention is paid to the prevention of the disease. Aside from this fact, the town officials have seemingly abated in their efforts to make the scavenger perform his duties properly, and according to the spirit of not the letter of his agreement with the town. For the past month, complaints have been heard to the effect that he too is very lax in his duties, although it is impossible to say what reason there is for such charges.

If the ratepayers were more careful and would use more discretion in what concerns their own safety and that of their neighbors, the deadly microbe might be done away with and the infection alleviated to some degree. At any rate, if a few of the fundamental axioms of public safety were considered to even a slight degree there would be less fear on the part of those, who choose to prevent rather than leave an opening for such outbreaks.

And now comes the announcement that the snow will be flying before all the grain is threshed. It shows either one of two things. The crops are heavier and of vaster proportions than in previous years with inadequacy on the part of the threshermen or the crops were later than usual necessitating a later start behind made by the separators. Anyone with the average amount of brains knows which is the case.

It is heard with no small degree of satisfaction that Councillor Covey intends withdrawing his resignation and is willing to sit at the Board for the remainder of his two year term. At the time that Councillor Covey submitted his resignation, many regrets were heard on all sides, and the declaration made that the town could ill afford to lose his valued services. The Chairman of the Public Works Committee has proved one of the mainstays of the council since his election and has played a strong hand in the development of the town.

The Census Returns

Although the final returns of the recent census are somewhat disappointing in that the estimates given were around the eight million mark and in many cases in excess of even that, the result that Canada has achieved during the past decade is by no means discouraging. On the other hand, it should be considered in the opposite light when it is realized that the population has increased in double the ratio as that between 1891 and 1901. The present figures give the population as 7,081,809 as compared to 3,571,315 in 1901.

The returns as yet are incomplete and the announcement is made that when the final results are printed, the population will easily reach 7,100,000. Canada has worked slowly yet steadily, speedily yet certain.

Even if no by-election is to be held in this constituency for the provincial house and even if no announcement has yet been made by Premier Sifton as to when the campaign will start or when he will go to the people, local agitators and partisans are not lacking time or interest in the matter. It is stated on reliable authority that a candidate will be nominated from Wainwright to contest the seat in Alexandria, although it is not known to which party he will cleave.

The Cabinet ministers at Ottawa are falling into line and have taken over their new duties, according to their respective portfolios. Each has started in his particular office with determination and with the hope of holding down his job satisfactorily. They doubtless realize that Canada is watching their every move and are ready to criticize where ever occasion permits it.

Wainwright is still being advertised by the sub-division agencies holding interests in the Buffalo Town. Their campaign is marked with that determination to dispose of what they have sunk their money in, regardless of the interests of the whole. It is to be hoped that the time is not far distant when such legislation will be passed limiting the practices of the Western Sub-division crooks, and providing at the same time for punishment from fraud and deception.

A unique proposal has been made by Hon. Robert Rogers that will ultimately be acted upon by the new Borden government. His proposition contends that every newcomer to Canada should be counted and those leaving the country taken account of also. In such case, it would then be possible to know the population of the country at any time.

In almost every city of the West, the citizens and officials are up in arms over the results as shown by the census. Prince Albert on Monday started a special census, the work being done by volunteers. Edmonton is naturally disappointed that the returns should not show any more than 32,882. Steps have been taken by the city commissioners to have a civic police census gathering. Moose Jaw, Regina, Nelson and almost every city in the West will adopt the same course.

ALBERTA AGAIN CAPTURES PRIZE

Alberta for the second time has captured the Grand Challenge Trophy at the International Dry Farming Congress. With this trophy, the province has also secured several medals, prizes and other awards. This will undoubtedly mean much to the province and will encourage many settlers to eventually direct their paths to Alberta.

Next year the congress will be held at Lethbridge and on that occasion another opportunity will be afforded the practical farmers of the world to see of what value the fertile lands of Sunny Alberta are. Numerous farmers will come from the Western American States and there is no doubt but that they will carry away a good impression that will advertise the province extensively.

BOURASSA WAS LOYAL SUBJECT

The occasion of the visit to Wainwright of A. A. Mondou, M. P. for Yamaska, P. Q., brought forth many disclosures as to the personality and principle of Henri Bourassa, heretofore described as the notorious leader of the Nationalist Party. Mr. Mondou, who is a staunch Conservative had nothing but good to say of Mr. Bourassa and stated that his stand, taken from his high sense of principle and loyalty to the British Empire. Apart from the fact that reciprocity was ultimately opposed by him, the naval question was given a most broad minded view by him and a view that appearingly conformed with the desires of the French speaking people in Quebec.

RESIGNATIONS PROBABLE

From all that has been said and done since the election of officers on Saturday last for the Agricultural Society, there is little to be material changes in the very near future. Surely it cannot be thus that any new organization cannot be established without more or less friction.

The several by-elections in the province will be held on Monday next. Candidates have been working overtime of late, one with the hope of being elected and the other with the fear of being defeated.

The Saturday Press, of Saskatoon, has turned out a new wall map of the city showing the street car route approved by the Council, and all new subdivisions up-to-date. Circles show the distance of all blocks from the post office as centre. The Press will mail single copies of this map for fifty cents (50), three for one dollar (\$1.00). Address: Saturday Press, Saskatoon.

TO RENT—7 room house on 5th Avenue in good location, furnace heated and partly furnished. \$30 per month. Apply to

P. D. Laird & Son.

WANTED—Hay and feed oats. Anyone having same for sale is asked to communicate with this office.

PRACTICAL HINTS TO WESTERN DAIRYMEN

The process of bacteria producing a butter is strong in three or four days after churning. The elimination of this particular kind of bacteria is the only way in which the trouble can be overcome. This would be accomplished in an up-to-date creamery by pasteurization followed by the introduction of a lactic acid starter that would develop a flavor more suitable to the taste. As pasteurization is not convenient except where a large amount of cream is handled, it is necessary under farm conditions to prohibit the entrance of disturbing bacteria rather than to attempt eliminating them later. This would be a simple task were it possible to determine at just what stage of the process of butter production the bacteria make their appearance, but this is unknown, as they might have been present in the air of the barn, on the bodies or udders of the cows, in the milking utensils, about the person of the milker, in the separator, the cream can, the churn or even in the water with which the butter was washed.

Absolute sanitation and cleanliness are therefore necessary from the time the cow leaves the pasture till the butter is consumed, to locate and remedy the cause. The udder and teats of the cow should be washed and dried before milking, and the milking should be done with clean and dry hands. The milk pails, cans, separator parts, the churn, and, in fact, all the utensils that come in contact with the milk and cream should not only be washed absolutely clean but they should be scalded with boiling water or steamed and set in the sun to dry. Very often on the farm milking utensils are dried with dish cloths, which is one practice accountable for undesirable flavors in the butter.

As soon as the milk has been drawn from the cow it should be removed from the barn, for

TENDERS

Sealed tenders will be received by the undersigned until Saturday, October 28th, at 6 o'clock P. M. for the erection of a school building to be erected on the S. W. 1/4 of sec. 10, T. 24 N., R. 10 W. Plans and location may be seen at the office of E. D. Simpson, at the residence of G. A. Hunt, Health, Altn. and marked "Tenders for School." The lowest or any tender not to be returned.

(Sgd., G. A. Hunt.)
PRIVATE SALE—Furniture and household effects of the undersigned will be sold by private sale from his residence 4th Avenue from this date.
E. C. Logan.

LOST—About June 30th, strayed from Limerick's herd, one red mallow cow, about five or six years old, with wire in left ear. Suitable reward offered for return to Sina. J. H. Dawson.

WANTED—50 acres of stubble plowing must be done immediately. Land in best possible condition. Apply to P. D. Laird & Son.

WANTED—Experienced tin smith immediately. One used to furnace work preferred. Apply to Cassidy & Collier.

while milk is cooling it takes up colors very rapidly. It should be separated and the cream cooled immediately, for any bacteria that might have gained access to the cream up to this time will multiply very rapidly as long as the cream remains warm. After the cream has become thoroughly cool it may be mixed with other cream, but not before, and it should be kept well covered in a cool place until churning time. Just before churning the churn should again be well scalded to make sure that no undesirable bacteria that may have been at work in it since the last churning will come in contact with the cream that up to this time has been kept in a condition that will insure butter of good flavor that will be lasting under suitable storage conditions.

READY NEXT WEEK

The new Merchants Bank building at the corner of Main St. and Second Avenue is practically completed and, when the office fixtures are installed in the course of a week or two, it will be completed. There is some talk of the old building being leased to the Young Men's Club until the new bank building is completed.

M. Mecklenburg, the celebrated and experienced eye specialist of twenty years' reputation in Europe and on this continent, will again be in Wainwright on Monday, October 30th. He will be at the Wainwright Hotel and all who are in any way troubled with their eyes should consult him professionally.

85% of all headaches are the result of eye strain. Are you troubled that way? If so, consult S. L. Taube (of the Taube Optical Co., Calgary) who will treat the Wainwright Pharmacy on Thursday, October 26th.

THAT BALD SPOT

Don't let that bald spot grow! Go to your druggist at once and get a bottle of Parisian Sage and if that don't check the falling hair, and cause new hair to grow, nothing will.

Dandruff is the cause of baldness; dandruff germs cause dandruff. Parisian Sage kills the germs, eradicates dandruff, stops falling hair and itching scalp. We will refund your money, if it fails to do this in two weeks. Parisian Sage will cause the hair to grow, if the hair root be not dead. It causes the hair to grow thicker, more luxuriant, and puts new life into it.

The girl with the Auburn hair is on every package of Parisian Sage. It is sold for 50c. by all druggists or sent postpaid by the Gironx Mfg. Co., Fort Erie, Ont., on receipt of price. Sold and guaranteed by

Remember the date of S. L. Taube's visit to Wainwright, and if you have eye troubles, consult him at the Wainwright Pharmacy on Thursday, October 26th.

ALBERTA STOCK YARDS, EAST CALGARY

THURSDAY, OCT. 26th, at 12.30 o'clock

200 HEAD HORSES

Instructed by Edwin Kerslake, Esq., of Tongue Creek.

Comprising:

Sucking Colts, Yearlings, 2 and 3 Year Olds, Balance Mares and Geldings.

This is an exceptional good bunch of horses, weighing from 1200 to 1400 lbs., the mares are all bred to that well known horse "Buck's Heir." Mares are mostly broke, and are of Clyde breeding; low set and stocky.

I have personally inspected these horses, and find them of exceptionally good bone and conformation, and well worth the attention of anyone desirous of purchasing some first-class horses. Sucking colts, yearlings and 2 year olds will be sold in Car Load Lots. Also contract's outfit, consisting of 8 heavy teams, wagons and harness. Teams weighing from 2500 to 3500 each. All 5 to 7 years old, and well suited to bush work. Property of Mrs. V. Wease, Calgary.

In and About the Town

On Tuesday, October 31st, M. Meeklenburg will be at the Irma Hotel, where he may be consulted professionally. Mr. Meeklenburg is an eye specialist of long standing and varied experience. It will pay you to consult him.

Mr. J. C. Culp has returned to Edmonton. Mrs. Culp and family, having gone to the Capital last week. In future Mr. Culp, who is a contractor, will run out of Edmonton.

Taking advantage of the excellent opportunities for bird shooting, two prominent citizens and sportsmen from Edmonton were here last week and enjoyed a few days' sport. The party included John T. Mills and George McLean. They took back several quail as well as numerous ducks and chickens.

John Thorne, the well-known G. T. P. conductor, who was confined to the General Hospital in Edmonton a short time ago with typhoid fever, was here a few days last week and returned to the city on Saturday.

Mr. E. C. Logan has accepted a position with a prominent Winnipeg Drug firm, will leave here about November 1st, for Prince Albert to manage a branch store of the company.

The local Conservatives will hold a SMOKER in Washburn and Mills Hall on Friday evening next, beginning at eight o'clock. All conservatives are cordially invited to attend.

Women Suffer

More than Men

Women have more than their share of the aches and pains that afflict humanity. They must "keep up" in spite of constantly aching backs, or headache, dizzy spells, etc. Mrs. Edward Caldwell of 123 S. Harold Street, Port William, Ont., says:

"I suffered with dull, miserable pains, soreness across my back and in my sides for months. They would catch me so badly at times that I could scarcely move around. I would have dizzy spells and, together, felt generally run down. After using a number of remedies without finding relief, I learned of Booth's Kidney Pills and found them an excellent remedy. They not only relieved me of the miserable pains and soreness in my back but cured me of my kidney trouble."

Booth's Kidney Pills cure Backache, Dull Shooting Pains, Thick and Cloudy Urine, Gravel or Stone, Rheumatism and all diseases of the kidneys and bladder.

All druggists and dealers 50c box or post paid from The R. T. Booth Co. Fort Erie Ont. If you derive no benefit your money will be refunded. Could we say more? Sold and guaranteed by

Booth's Kidney Pills

GRAND TRUNK RAILWAY SYSTEM

Thanksgiving Day

October 30th, 1911

FARE AND ONE-THIRD FOR ROUND TRIP Between all Stations

Good going Oct. 27 to 30 inclusive Returning until Nov. 1, 1911

Particulars apply to Grand Trunk Pacific agents or W. J. QUINLAN, Dist. Passenger Agent, Winnipeg

The weather for the past week has been somewhat backward although it has been no extent retarded the progress of the thermometer. For this time of the year, even though it is cold, the weather is no more than could be expected.

William Tread, who has been on his home land for the past nine months, has moved to town and is now clerking in the store of Betts & Co. Another deal added in the timber for hockey material.

In view of the fact that chicken season closes on the last day of the month, many local parties are spending much of their time around Baxter Lake and the localities where chicken abound. Several parties from Edmonton have also visited town during the past week.

Messrs. Lou McLuhan and John Gano left on Sunday's express for Ontario and other Eastern points, where they will hunt big game in the wilds of Northern Ontario, after which they will make extended visits to the Southern States, returning here via Vancouver.

Miss Bessie Anderson, who is at present employed in the central office of the Alberta Telephone Co., Edmonton, was a visitor here on Saturday and Sunday last.

Mr. Robert Smith, who has been homesteading for the last few weeks is again at the Pioneer Meat Market. His many friends are glad to see him back.

"NYALS"

Bob Snyder, who is recognized as one of Wainwright's chief dog fanciers, has raised a couple of valuable thoroughbred English setters. Quite recently, he has named them "Nyals" and "Nadine", from the fact that in the Wainwright Pharmacy, he sells these famous lines of family remedies. Stating them, he states that they have increased in value about \$50 each.
